ALYKA Health

# EXPAND YOUR REACH WITH ALYKA HEALTH

## Working together, we can remove the barriers that make it hard for patients to take control of their health.

We share the same goal: to improve patient experience and outcomes. When you work with ALYKA Health, you integrate with a health app proven to engage patients and deliver results.

### Why Build When You Can Partner?

It's more efficient and cost-effective to partner with a proven solution than it is to build your own patient-facing app. One easy integration enables you to make your solution available to healthcare providers and their patients.

- Increase visibility with healthcare providers and patients
- Boost engagement, driving better outcomes and retention
- Improve the overall patient experience
- Expand marketing and revenue opportunities

**71%**
PATIENT ENGAGEMENT

**ALYKA Health uses evidence-based clinical content, behavioral science, advanced technology, and engaging multimedia to personalize support and make a measurable difference.**

### For RPM and Device Companies

Integrate your data into the ALYKA Health app to support improved outcomes and engagement.

- Show integrated data trends over time
- Combine your data with EHR and self-reported data
- Patients see goals and insights based on all data
- Multimedia education and gamification promote goal achievement

## What makes ALYKA Health More Effective at Patient Engagement?

ALYKA was designed by clinical and engineering experts to fill the gaps between visits and help patients achieve improved clinical outcomes using:

- **Behavioral science-based design** that leverages proven engagement strategies from leading consumer platforms.
- **Advanced technology** that creates personalized experiences by synthesizing multiple data streams and delivering actionable insights and achievable goals.
- **Engaging digital experiences** that combine gamification and evidence-based clinical content for industry-leading engagement rates.

### We partner with solutions in:

- ✔ Population health
- ✔ Remote patient monitoring
- ✔ Chronic care management
- ✔ Quality and outcomes

### The ALYKA Health team provides:

- ✔ Dedicated account managers
- ✔ Cobranded marketing templates
- ✔ Seamless client onboarding
- ✔ Ongoing engagement reports

### For Chronic Condition Solutions

Support chronic care management with vital health reminders, goals, and education.

- **Reminders** for medications, appointments, and other important dates
- **Personalized goals and insights** based on three layers of patient health data
- **Multimedia education and gamification** that helps patients achieve thier goals
- **An elevated patient experience** for improved program retention rates
